

DIARY NOTES

ADD/A

4 January 1952

Continued my orientation in I&S, particularly with the Inspection Division and the Alien Affairs Officer. Still have to visit the Polygraph Unit and the Administrative Office briefly which I plan to do on Saturday. This will complete my orientation in I&S at least for the time being.

DAILY DIARY

- 4 January 1952 -

1. Continued my orientation in T&S by spending approximately an hour each with the Inspection Division [REDACTED] and the Alien Affairs Officer, [REDACTED]

2. Visited the [REDACTED] in company with Messrs. Wolf, [REDACTED] and Peel and [REDACTED]. Mr. Wolf appeared to be extremely well impressed with what he saw and the progress that has been made to date. He issued specific instructions that the [REDACTED] be fixed up as the Director's personal quarters in case of emergency but that it not be lavishly done. It is to be made simple, comfortable, and attractive, but no money is to be wasted to make it ostentatious. [REDACTED] will proceed to get estimates on this and discuss it with us prior to letting any contracts.

Mr. Wolf is also seriously interested in the possibility of utilizing as much of the unused space at [REDACTED] as possible and asked Mr. Peel and me to investigate the possibility of having some of our overcrowded groups work at [REDACTED] on a temporary basis. He indicated that he would be willing to consider the possibility of furnishing transportation to and from [REDACTED] to accomplish this purpose if necessary, but added that working out any such arrangement would have to be consistent with (a) the Emergency Plan and (b) the Training Program now being carried on at [REDACTED]
